

THE DUMMY COMPANY

Information Technology Policy Document

Document Reference: IT-POL-2024-001 | Issued: January 2024 | Review Date: January 2025

1. Purpose & Scope

This IT Policy outlines the acceptable use of information technology resources at The Dummy Company. It applies to all employees, contractors, and third-party users who access company systems. Non-compliance may result in disciplinary action up to and including termination of employment.

2. Acceptable Use Policy

All company devices, networks, and systems are provided for business use. Limited personal use is permitted provided it does not interfere with work duties or violate this policy. Users must not access, store, or transmit unlawful, offensive, or confidential material without authorisation. All activity on company systems may be monitored and logged.

3. Password & Access Control

Passwords must be a minimum of 12 characters, containing uppercase, lowercase, numbers, and symbols. Passwords must not be shared or written down. Multi-factor authentication (MFA) is mandatory for all remote access via Cisco VPN and Microsoft 365. Access is governed by the principle of least privilege and managed through Active Directory and Okta SSO.

4. Remote Working & VPN

Employees working remotely must connect via the corporate VPN at vpn.thedummycompany.github.io before accessing any internal systems. Unapproved remote desktop tools are prohibited. All remote sessions are logged on Windows Server 2019. IT support tickets must be raised via Jira.

5. Key IT Contacts & Staff Directory

For IT-related queries, incidents, or policy clarifications, contact the relevant department lead below:

Name	Role	Email	Extension
Tony Stark	Chief Executive Officer	t.stark@thedummycompany.github.io	x101
Henry Cavill	HR Manager	h.cavill@thedummycompany.github.io	x204
Peter Parker	Finance Manager	p.parker@thedummycompany.github.io	x312
IT Helpdesk	General IT Support	it.support@thedummycompany.github.io	x100

6. Incident Reporting

Any suspected security incidents, data breaches, or policy violations must be reported immediately to the IT Helpdesk via Jira or by emailing it.support@thedummycompany.github.io. Do not attempt to investigate or resolve security incidents independently.

7. Software & System Environment

The company operates on Windows Server 2019 with Active Directory domain services. Endpoint devices run Windows 10 Enterprise managed via Microsoft Intune. Cloud services are hosted on Microsoft Azure. All software installations must be approved by the IT department. Unauthorised software is subject to immediate removal.

CONFIDENTIAL — This document is intended for The Dummy Company employees only. Unauthorised distribution is strictly prohibited. Document Owner: IT Department | Approved by: Tony Stark, CEO | Version 1.2
